Knock Down
grasses and broadleaf weeds

Laudis® postemergence herbicide provides powerful residual grass and broadleaf control combined with crop safety.

POWERSFUL WEED CONTROL
Delivers postemergence control of grass and broadleaf weeds.

RESIDUAL CONTROL
Stays active in the soil during the growing season, offering residual control of weeds, but does not limit crop rotation opportunities to soybeans the following season.

CROP SAFETY
The safener enables corn to better withstand herbicidal activity, which can lead to improved plant health.
